

Opportunities for Planetary Stewardship

1. Stewardship as an Existential Imperative
2. The Critical Earth Systems
 - (a) Global Climate
 - (b) Terrestrial Ecosystems
 - i. Primary Productivity
 - ii. Nutrient Recycling
 - iii. Waste Assimilation
 - iv. Genetic Reserves
 - (c) Aquatic Ecosystems
 - i. Primary Productivity
 - ii. Nutrient Recycling
 - iii. Waste Assimilation
 - iv. Genetic Reserves
3. The Critical Human Systems
Max-Neef, 2010
 - (a) Existential Needs Production and Delivery Systems
 - i. Food
 - ii. Water
 - iii. Clothing
 - iv. Shelter
 - v. Energy
 - (b) Emotional and Spiritual Needs Production and Delivery Systems
 - i. Cosmology
 - ii. Eschatology
 - iii. Community
 - iv. Culture
 - (c) Cooperative and Competitive Production and Delivery Systems
 - i. Trade
 - ii. Governance
4. External Opportunities
 - (a) Creating New Systems
 - (b) Re-vamping Existing Systems

5. Internal Opportunities

- (a) Creativity
- (b) Intuition
- (c) Mind, Body, Spirit
